An audit is a systematic and independent examination of books, accounts, statutory records, documents and vouchers of an organization to ascertain how far the financial statements as well as non-financial disclosures present a true and fair view of the concern. It also attempts to ensure that the books of accounts are properly maintained by the concern as required by law.

Audit - Wikipedia

The Analytic Processes Maturity Model (APMM) is a framework that divides the processes needed for analytics into six key areas, and based upon the maturity of these processes, divides organizations into five analytic maturity levels.

A framework for evaluating the analytic maturity of an
