Medication Therapy Management: Health, Safety and Savings

Art therapy (not to be confused with arts therapy which includes other creative therapies such as drama therapy and music therapy) is a creative method of expression used as a therapeutic technique. Art therapy, as a creative arts therapy modality, originated in the fields of art and psychotherapy and may vary in definition.. Art therapy may focus on the creative art-making process itself, as ...

Art therapy - Wikipedia

Play therapy is a method of meeting and responding to the mental health needs of children and is extensively acknowledged by experts as an effective and suitable intervention in dealing with children's brain development. It is generally employed with children aged 3 through 11 and provides a way for them to express their experiences and feelings through a natural, self-guided, self-healing ...

Before making recommendations, some terminology issues deserve a brief discussion. Unfortunately, rating scale terminology is used inconsistently, especially the term "scale." 10 This is problematic as it results in a lack of clarity surrounding the intended meaning. Research methods texts frequently define a scale as a group of items.^{17, 25} At times a scale may refer to individual item ...

How to analyze Likert and other rating scale data

Number: 0604. Policy. Aetna considers low-level infrared light (infrared therapy, Anodyne Therapy System) experimental and investigational for the treatment of the following indications because of insufficient evidence regarding the effectiveness of infrared therapy for these indications (not an all-inclusive list):

In this study, the input is Japanese music and the output is human subjective and objective responses. Based on this scheme, we discuss the most effective music therapy for dementia patients using Japanese music in this study.

Music Therapy with Ethnic Music for Dementia Patients

Bones and Neutrophils Control Lung Cancer. Tumors are often infiltrated by diverse immune cell types, some of which remain largely unexplored. In a study published in Science, the Pittet lab at the MGH Center for Systems Biology uncovers a new type of neutrophil that promotes lung cancer. The production of these neutrophils involves an unexpected remote crosstalk between tumors and bones: lung ...
