Open-source robotics (OSR) is where the physical artifacts of the subject are offered by the open design movement. This branch of robotics makes use of open-source hardware and free and open-source software providing blueprints, schematics, and source code. The term usually means that information about the hardware is easily discerned so that others can make it from standard commodity ...

Hardware. The PCB is designed using KiCad. Have a look at the links under the Resources heading at the top of this page to find all files. Currently I have no assembled PCBs or kits to sell, but you can order bare PCBs from hackvana with these gerber files. Since hackvana got so many orders for my ESC, Mitch wrote a wiki page about how to order VESC boards from him.
