Psychological evaluation is defined as a way of assessing an individual's behavior, personality, cognitive abilities, and several other domains. The purpose behind many modern psychological evaluations is to try to pinpoint what is happening in someone's psychological life that may be inhibiting their ability to behave or feel in more appropriate or constructive ways; it is the mental ...

There are few widely acknowledged quality standards for research practice, and few definitions of what constitutes good research. The overall aim was therefore to describe what constitutes research, and then to use this description to develop a model of research practice and to define concepts related to its quality.

Evaluating research: A multidisciplinary approach to

The American Antiquarian Society's Historical Periodicals Thematic Subset Collection documents the life of America's people from the Colonial Era through the Civil War and Reconstruction with digital access to the most comprehensive collection of American periodicals published between 1684 and 1912.
