Constructivism is a philosophical viewpoint about the nature of knowledge. Specifically, it represents an ontological stance.. There are many flavors of constructivism, but one prominent theorist is Jean Piaget, who focused on how humans make meaning in relation to the interaction between their experiences and their ideas. He considered himself to be a genetic epistemologist, meaning he was ...

Constructivism (philosophy of education) - Wikipedia

Data analysis is a process of inspecting, cleansing, transforming, and modeling data with the goal of discovering useful information, informing conclusions, and supporting decision-making. Data analysis has multiple facets and approaches, encompassing diverse techniques under a variety of names, while being used in different business, science, and social science domains.

Publication in IJOA will only be considered for clinical trials that have been registered in a public trials registry. This policy applies to interventional clinical studies in which patient recruitment started after December 2014. In this context, an interventional clinical trial refers to any investigation in which a recruit is prospectively assigned to an intervention or treatment.
